

**Optimal IdM's Planning and Strategy Workshops can be an important step in an identity management project. The workshop provides an overall roadmap for 6 months, 12 months and 2-5 year timelines.**

<p><b>Description</b></p>	<p>Optimal IdM's AIM™ (Access and Identity Management) methodology is a proven repeatable implementation process that guides a customer through all steps of an implementation. An <i>IdM Planning and Strategy Workshop</i> can be an important step in an identity management project.</p> <p>Typically this workshop is geared for customers who have not started an identity management project. The main goal of the workshop is to review the business requirements, rank and organize them and then finally build a 6 month, 12 month and 2-5 year roadmap of delivery of the business requirements.</p> <p>Following the <i>IdM Planning and Strategy Workshop</i>, clients move into the project scoping phase which puts further detail and planning around the first phased delivery. The packaged solution OP-001 AIM™ Project Scoping provides this set of services.</p>
<p><b>Duration</b></p>	<p>Typically lasts one to two weeks but can be adjusted to suit your individual needs.</p>
<p><b>Cost</b></p>	<p>Please contact us at 813.425.6351 or via email at <a href="mailto:sales@optimalidm.com">sales@optimalidm.com</a></p>
<p><b>Deliverables</b></p>	<ul style="list-style-type: none"> <li>• <b>Workshop sessions</b> in which your staff along with Optimal IdM consultants evaluates and review business requirements to detail and rank requirements by business need.</li> <li>• <b>Identity Management Roadmap</b> is a document that organizes the requirements into a phased roadmap, typically in a 6 month, 12 month and 2-5 year rollout schedule.</li> <li>• <b>Key Wins Document</b> that describes what initiatives will likely be included in the initial project delivery. These items offer the most benefit to the business with quick delivery. This helps to gain internal support from both users and management by having a successful initial project.</li> </ul>
<p><b>Benefits</b></p>	<ul style="list-style-type: none"> <li>• <b>Reduce costs and save money</b> by identifying early in the project the areas that your staff should focus their efforts.</li> <li>• <b>Develop a solid roadmap</b> by establishing clearly defined scope and objectives for your project which will provide a solid base to build upon.</li> </ul>
