

Optimal IdM's AIM™ (Access and Identity Management) methodology is a proven repeatable implementation process that guides a customer through all steps of an implementation. One of the most important steps is the scoping phase; vital to keeping project on time and on budget.

<p>Description</p>	<p>Optimal IdM's AIM™ (Access and Identity Management) methodology is a proven repeatable implementation process that guides a customer through all steps of an implementation. A key phase is the project scoping phase which is usually performed many times over the full life cycle of an IdM project.</p> <p>In a scoping phase, Optimal IdM consultants work with your team to understand your business requirements, detail and document technical requirements and finally estimate the time and work effort involved to deliver the functionality.</p> <p>Our AIM™ methodology provides the necessary tools to properly estimate the tasks in an organized and easily replicated process.</p>
<p>Duration</p>	<p>Typically lasts one to two weeks but can be adjusted to suit your individual needs.</p>
<p>Cost</p>	<p>Please contact us at 813.425.6351 or via email at sales@optimalidm.com</p>
<p>Deliverables</p>	<ul style="list-style-type: none"> • Workshop sessions in which your staff along with Optimal IdM consultants evaluates and review business requirements to determine a project scope and time/cost estimates. • Project Scoping & Discovery document detailing the project requirements. In many cases, business requirements are further detailed and as a result more detailed technical as well as system requirements are identified and documented. • Project Schedule outlining the milestone tasks in the project, including time and resource estimates.
<p>Benefits</p>	<ul style="list-style-type: none"> • Reduce costs and save money by identifying early in the project the areas that your staff should focus their efforts. • Gain valuable Best Practices from experienced consultants who have been working in the IdM industry for years. • Develop a solid roadmap by establishing clearly defined scope and objectives for your project which will provide a solid base to build upon.
