

**The OAM Conversion package provides new and potential Oracle Access Manager customers with a systematic approach for how to convert from an existing identity management system to the Oracle Access Manager product.**

<p><b>Description</b></p>	<p>The OAM Conversion package provides organizations with the knowledge of both the OAM (Oracle Access Manager) software and the services necessary to begin the process of converting from an existing identity management product to the OAM solution.</p> <p>Optimal IdM’s consultants have successfully deployed hundreds of identity management projects, many of these have been migrations to the OAM system. Utilizing our deep expertise of the OAM system, along with our AIM™ methodology we can provide customers with a consistent organized approach to any IdM conversion.</p> <p>Specifically, we have expertise in converting customers to OAM from solutions such as:</p> <p><b>BMC Identity Management for .NET</b>  <b>Entrust GetAccess™</b>  <b>IBM® Tivoli® Identity Manager/ Tivoli Access Manager</b>  <b>CA Siteminder</b></p>
<p><b>Duration</b></p>	<p>Typically lasts 4-6 weeks but can be adjusted to suit your needs.</p>
<p><b>Cost</b></p>	<p>Please contact us at 813.425.6351, <a href="mailto:sales@optimalidm.com">sales@optimalidm.com</a>, or speak to your local Oracle representative about this offering.</p>
<p><b>Deliverables</b></p>	<ul style="list-style-type: none"> <li>• <b>Project Scoping and Discovery</b> document that provides the base requirements and design for your entire IdM deployment, including architecture and application integration.</li> <li>• <b>Project Roadmap &amp; Schedule</b> outlining the milestone tasks needed in your conversion; including time/resource estimates to provide your team the information it requires.</li> <li>• <b>Technical Architecture &amp; Conversion Design Document</b> containing base infrastructure design, conversion options/approaches, as well as best practices.</li> <li>• <b>Installation and configuration of the OAM system</b> in your development environment. This includes: selecting and installing an LDAP directory, extending schema, installing and configuring the base Identity and Access system.</li> <li>• <b>Best Practice Knowledge Sharing</b> sessions allow your technical staff to become experienced with the OAM solution. Our AIM™ methodology contains sessions covering all of the OAM implementation topics in an easy to follow format.</li> </ul>
<p><b>Benefits</b></p>	<ul style="list-style-type: none"> <li>• <b>Eliminate management concerns</b> by successfully converting a pilot application.</li> <li>• <b>Save time and money using</b> expert identity management consultants who have hundreds of successful deployments and experience in performing IdM conversions.</li> <li>• <b>Produce a successful deployment quickly</b> by using consultants who have faced and solved the same problems your organization may encounter. Your staff will learn from veteran experts who have many years of experience implementing the OAM product and will learn invaluable information on what to do and not to do when implementing the product</li> <li>• <b>Reduce risk</b> by leveraging experts who work with Fortune 1000 customers as well as federal, state and local government agencies. Optimal IdM is the trusted provider of OAM consulting.</li> </ul>
